

NOTICE · NAME · NOURISH

Your Energy *Check-In*

A one-page ritual for listening before you push through.

How available does your energy feel right now?

1	2	3	4	5
---	---	---	---	---

What is draining me?

A task, thought, interaction, or unmet need.

What is restoring me?

A person, place, practice, or small pleasure.

Today, my system is asking for...

Circle or add your own: movement · quiet · food · water · clarity · company · space · play · completion

One nourishing choice I can actually make:

TAKE WHAT YOU NEED

Your energy is not something to *force*.

Sustainable energy comes from understanding your own patterns. Notice what fills you and what drains you. Let that awareness guide your choices today.

“Rest is not a reward.
It is part of the work.”

Use this tracker daily. Print as many copies as you need. Return to it whenever you want a moment of honest self-care.
